

Equity & inclusion as a way of developing diverse, resilient, and more relevant open source software

Griselda Cuevas | Aizhamal Nurmamat kyzyl

Airflow Summit
July 6-17, 2020

What we will discuss

- Common challenges for Open Source Communities
- State of Diversity in Open Source
- Diversity & Inclusion | Apache Software Foundation
- Diversity & Inclusion | Apache Airflow community

Work Overload

for Project Maintainers

High Number of Open Bugs

Slow Project

Adoption

Communities in Other Countries you haven't engaged

Maybe...

Equity

Diversity

Inclusion

Diversity & Inclusion in open source

The process of employing/attracting a diverse team of people that's reflective of the society in which the technology or project exists and operates.

*“Diversity is a Metric, Inclusion is a process
and Equity is an outcome.”*

The Apache Software Foundation

Motivation

Survey design, data collection, and analysis aligned with the **ASF D&I strategy**.

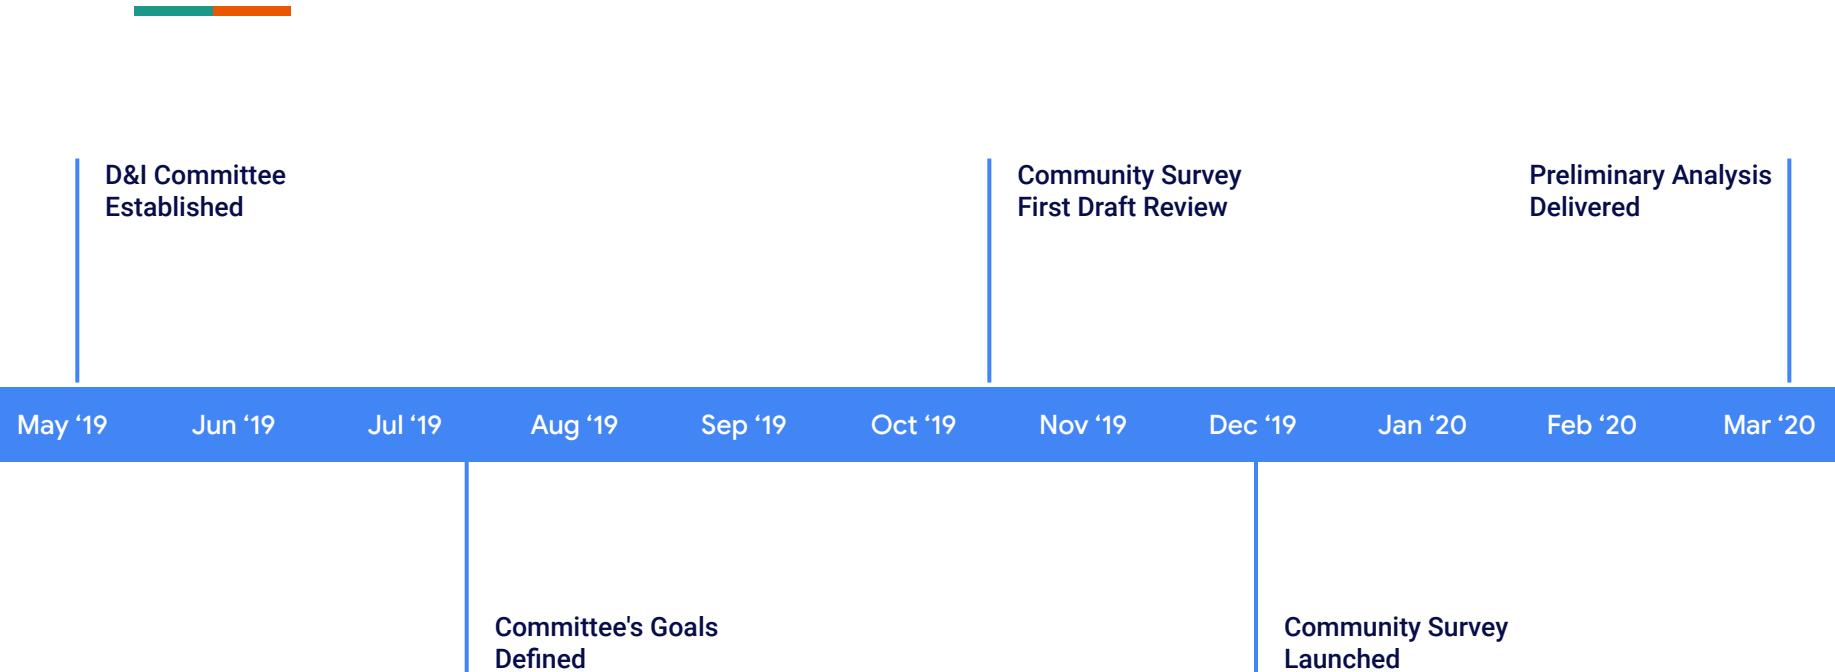

2019 short term goals

- **Gather scientific data** to study current status of Diversity and Inclusion at the ASF
- **Raise awareness** in our community about the importance of Diversity & Inclusion in the business, and in the open source industry
- **Find key indicators** to track over time

2020 medium term goals

- Instrument ASF's contributor funnel to **recommend a participation baseline** for underrepresented groups
- Create a toolkit to **address the top 3 entry barriers for new contributors** from under represented groups
- **Become a trusted thought partner** for PMCs when it comes to D&I

The 2020 ASF Community Survey Timeline

3 Efforts to gather data about the ASF community

The Community Survey

Project Metrics Analysis

New Contributor and Mentor Friction Logs

Survey

Survey* is split into:

1. Contributor Role and Tenure (4 questions)
2. Motivation (2)
3. Availability of Protocols / Guidelines (2)
4. Support for Newcomers (4)
5. Diversity and Inclusion (11)
6. Wrap up (3)

Each section contains a motivation introductory paragraph.

The screenshot shows a survey page from The Apache Software Foundation. At the top, the Apache logo is visible. Below it, a progress bar indicates 16% completion. The main content area is titled "Motivation". A descriptive text box states: "The objective of the following set of questions is to understand the motivation of contributors in the ASF and how they are able to make time to contribute." The first question asks: "In general, do you contribute to the ASF as paid or unpaid work?" with a note "Choose one of the following answers". The options are: Paid work only, Unpaid only, An equal mix of paid and unpaid, A mix, but mostly paid, and A mix, but mostly unpaid. The second question asks: "On average, how much time per week are you available to volunteer for unpaid projects (e.g., contributing to OSS, volunteering for a hospital, pet projects)?". It also includes the note "Choose one of the following answers". The options are: I dont have time to volunteer, 1-2 hours, 3-5 hours, 6-10 hours, and 10+ hours.

The ASF Community Readout Summary

Analysis Dimensions

- Demographics:
 - Age, Gender, English fluency, Background culture
- Socio-economic aspects:
 - Education, Compensation, Time to volunteer
- Experiences in the ASF:
 - Tenure, mentorship, challenges

Method

Demographics Analysis

Population analysis that help draw a first approach to the ASF ecosystem. This section mixes several attributes to understand specific areas, including education, gender, migrants, newcomers and challenges.

Profile Analysis

Identification of key profiles to be part of the *in depth interview process*. These are dependent of significant attributes important for ASF EDI working group such as gender, English speaking confidence, and others.

Survey Results

Average ASF contributor

Demographics

40 Years old

Man

Confident in English

Born/lives in the USA

Socio-economic Aspects

Bachelor's Degree

No compensation

1 or 2 hours for volunteering

Experience in the ASF

5 Years in the community

Didn't have a mentor

Faced no challenges

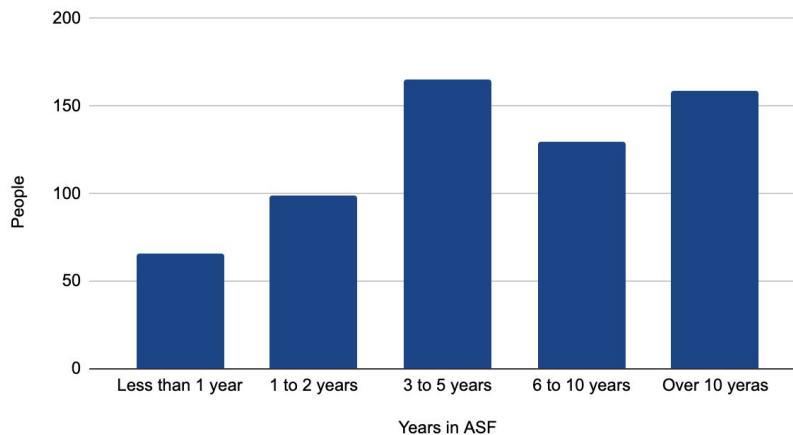

Getting Experienced

People with less than 1 year of experience represents **10%** of the answers

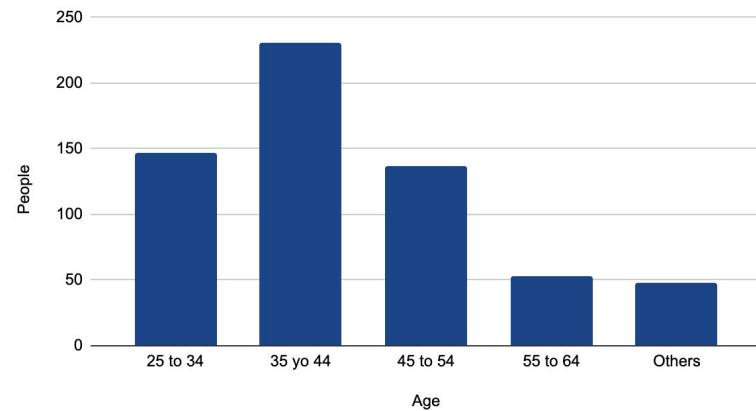

Participants under 24 represents less than a **5 %**

Are there barriers for newcomers or young adults?

People vs Years in ASF

People vs Age

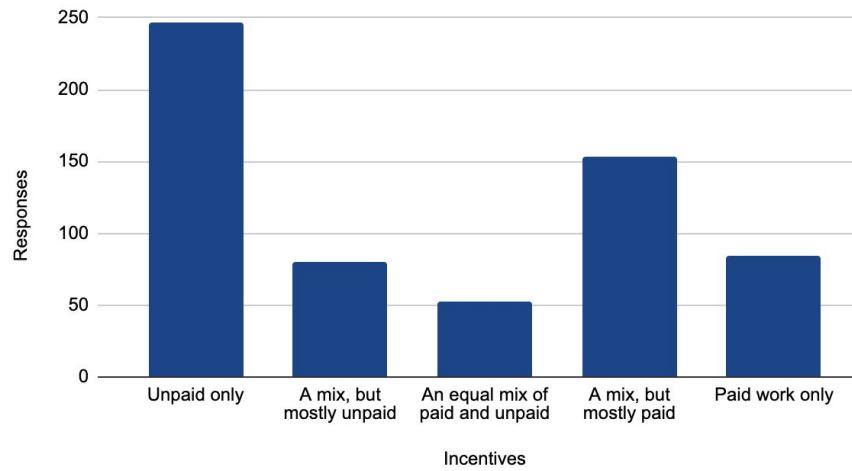

Mostly Volunteers

40% work as volunteers

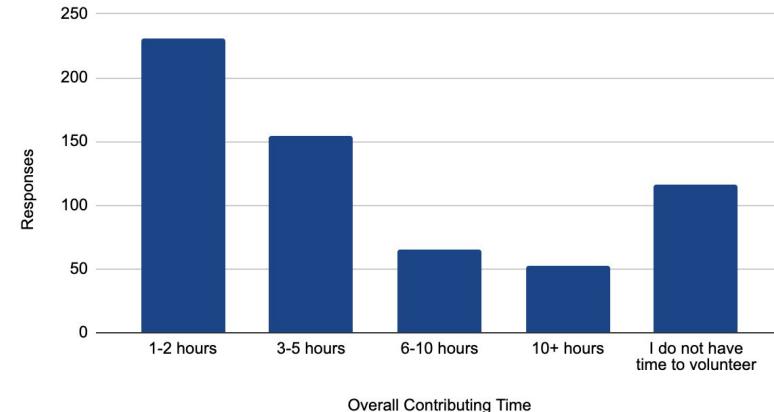

81% have less than 5 hrs/week
for volunteering

Are there ways to be more
efficient? To help those unpaid
volunteers to contribute?

Responses vs Incentives

Responses vs Overall Contributing Time

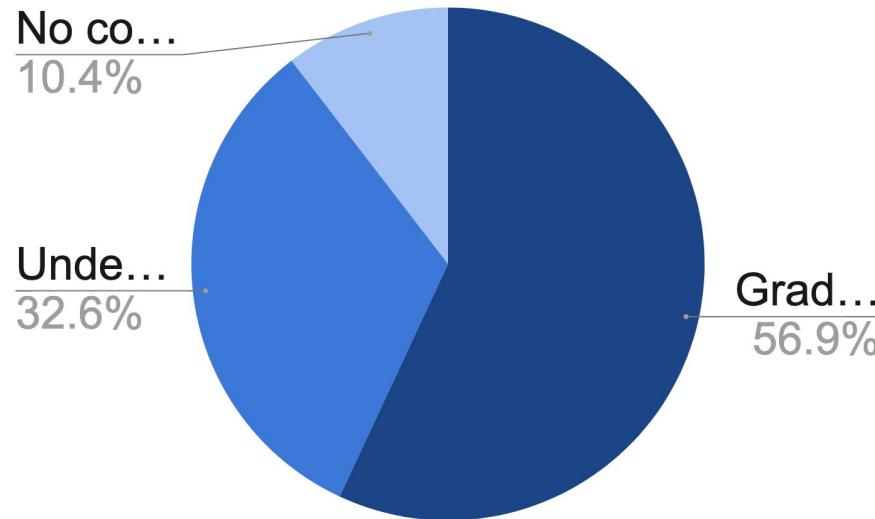

Highly Educated

Around 90% of ASF contributors are college educated or higher

Do these contributors know about OSS at their schools?

Are the “no college” group aware of OSS at the same level?

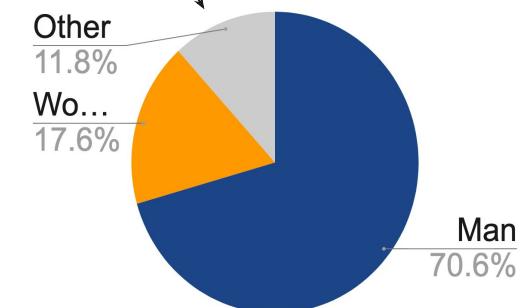

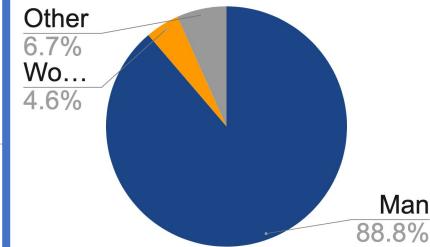

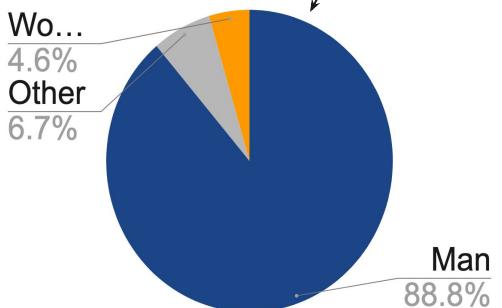

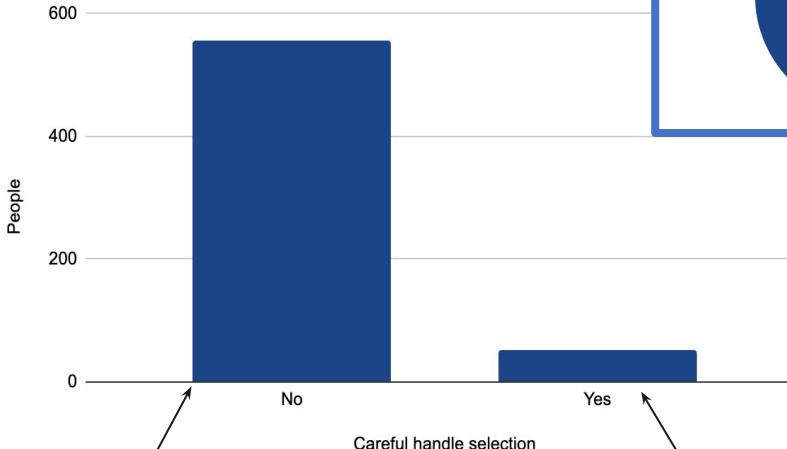

Mostly Men

11% have self-defined as women or with another gender

8.4% have carefully think what gender their handles represent

Are there issues related to non-gender neutral handle?
How can we improve the percentage of people coming from the Women and Others group?

People vs Careful handle selection

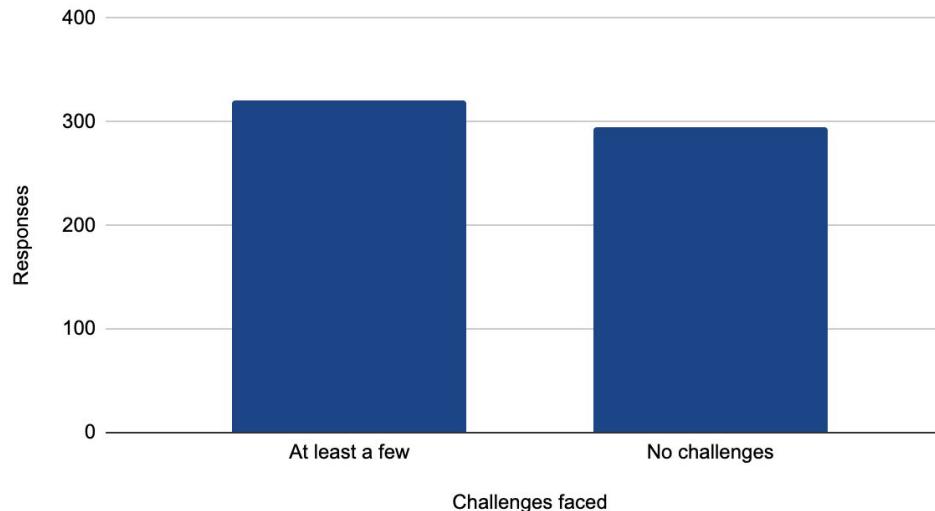

There are Challenges

About 52% of ASF contributors have faced challenges

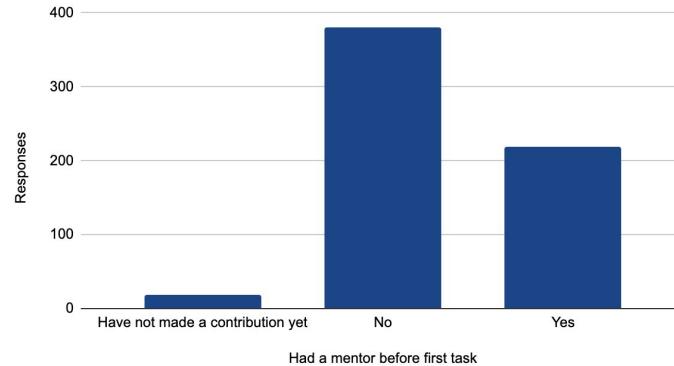

62% of contributors didn't have a mentor

How can we reduce these challenges to make the contributors path easier?

Responses vs Challenges faced

Responses vs Had a mentor before first task

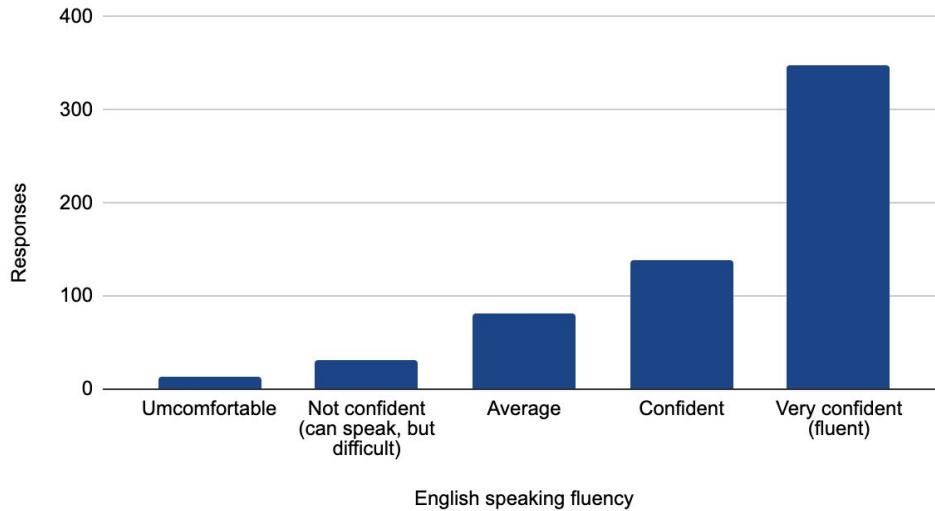

7% not English confident

Around 20% of contributors
feel they have an average
English level or less

Language seems to be a barrier
for communication

Responses vs English speaking fluency

Results: Demographics

Culture	# Responses	% Responses
United States	171	28.84%
Germany	69	11.64%
China	49	8.26%
France	32	5.40%
India	28	4.72%
United Kingdom	25	4.22%
Russian Federation	23	3.88%
Canada	18	3.04%
Spain	14	2.36%
Japan	11	1.85%

Top 10 countries by Culture

Residence	# Responses	% Responses
United States	230	38.27%
Germany	76	12.65%
China	37	6.16%
United Kingdom	28	4.66%
France	27	4.49%
Canada	18	3.00%
Netherlands	15	2.50%
Russian Federation	14	2.33%
Switzerland	12	2.00%
Japan	11	1.83%

Top 10 countries by Residence

Hypotheses

Hypotheses

Education impacts compensation

Those in minority face challenges

Men who face challenges have different demographics

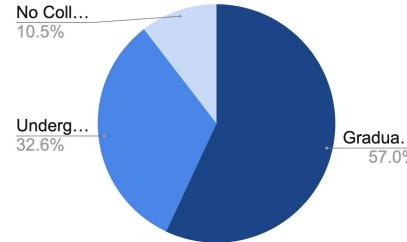

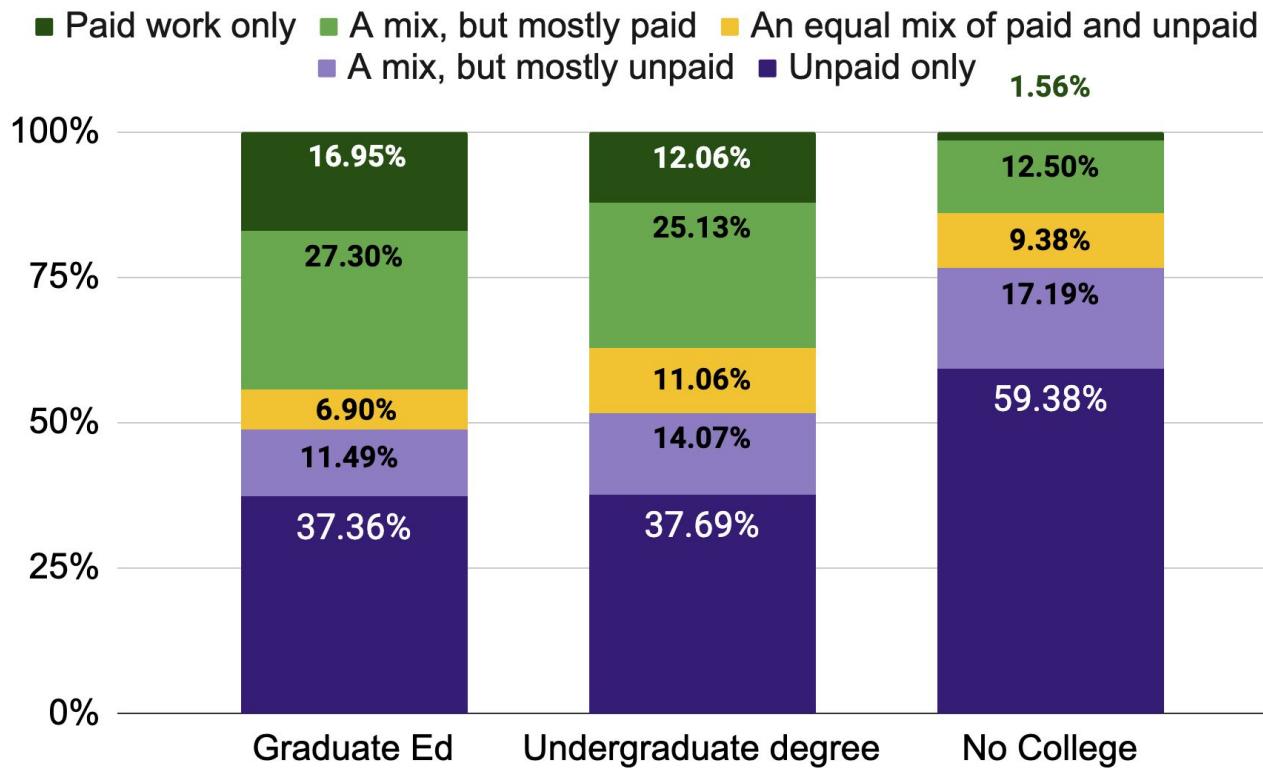

The culture where you grew up makes a difference

Education impacts compensation

↑ Education ↑ Compensation

Increase of Unpaid population
for those with no college
education

Willing to work as volunteer to
gain experience?

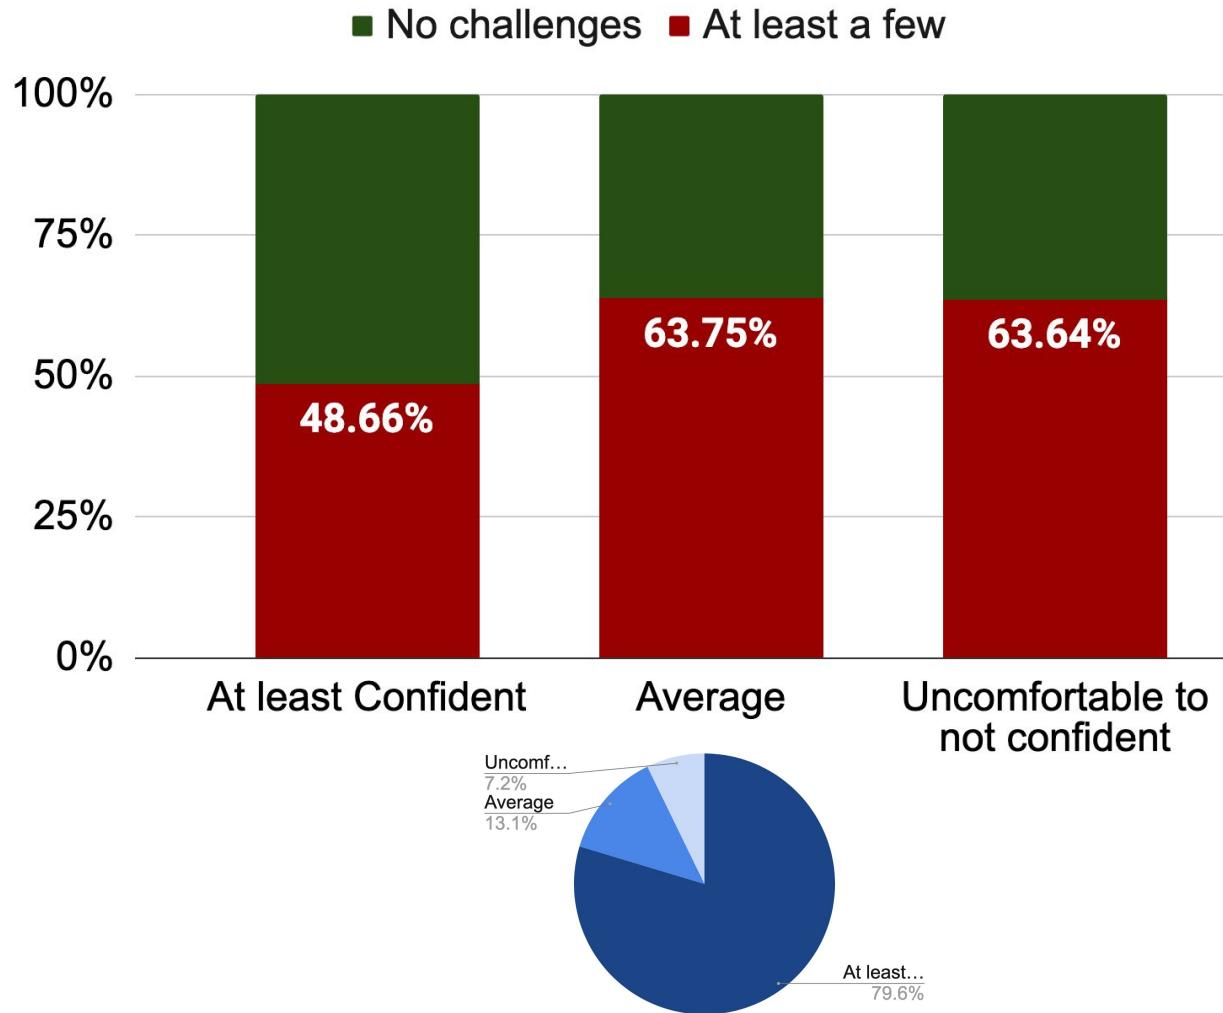

Those in minority face challenges

- English fluency
- Gender
- Having a mentor

Language

Those with an average English level or less faced more challenges

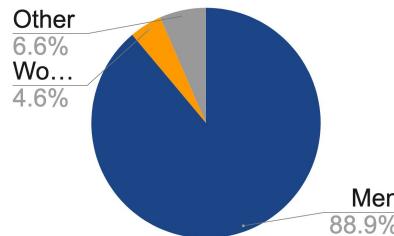

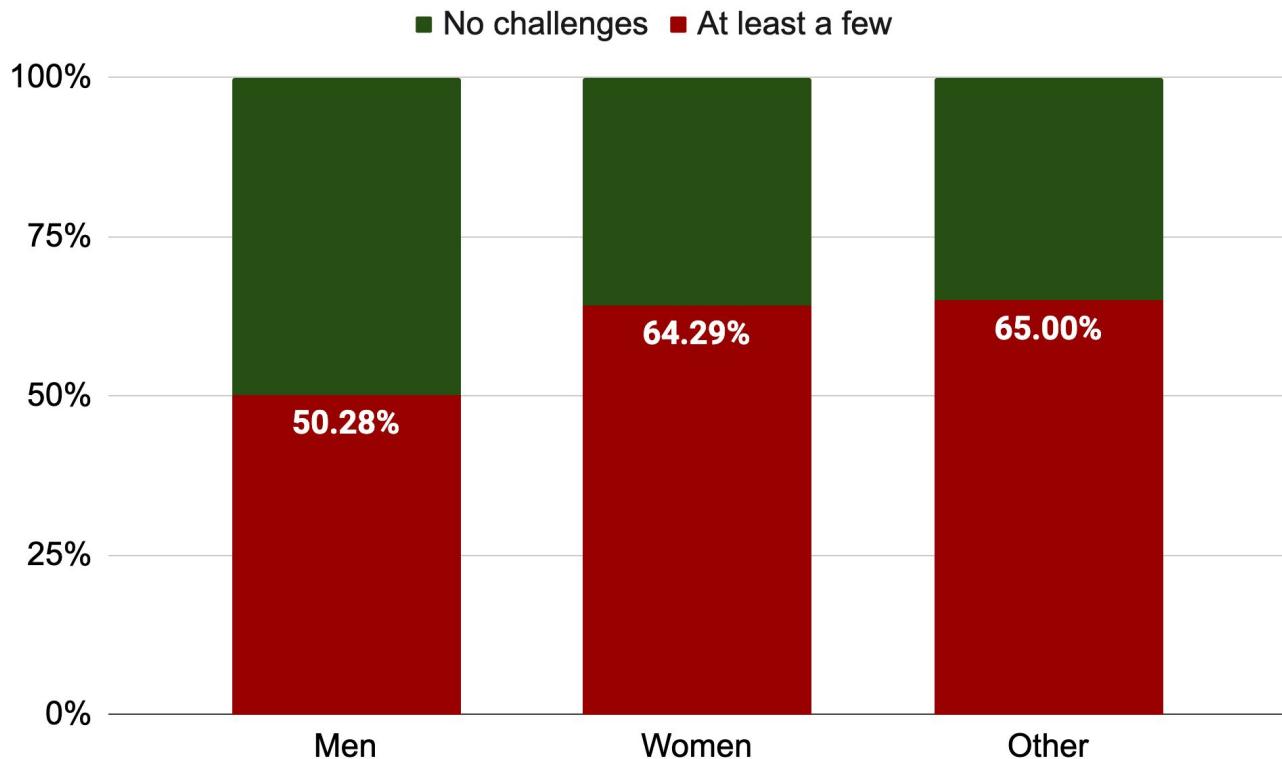

How can we lower the language barrier?

Gender

Those that self-assigned as Women or other groups (not men) faced more challenges

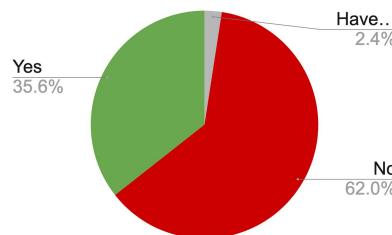

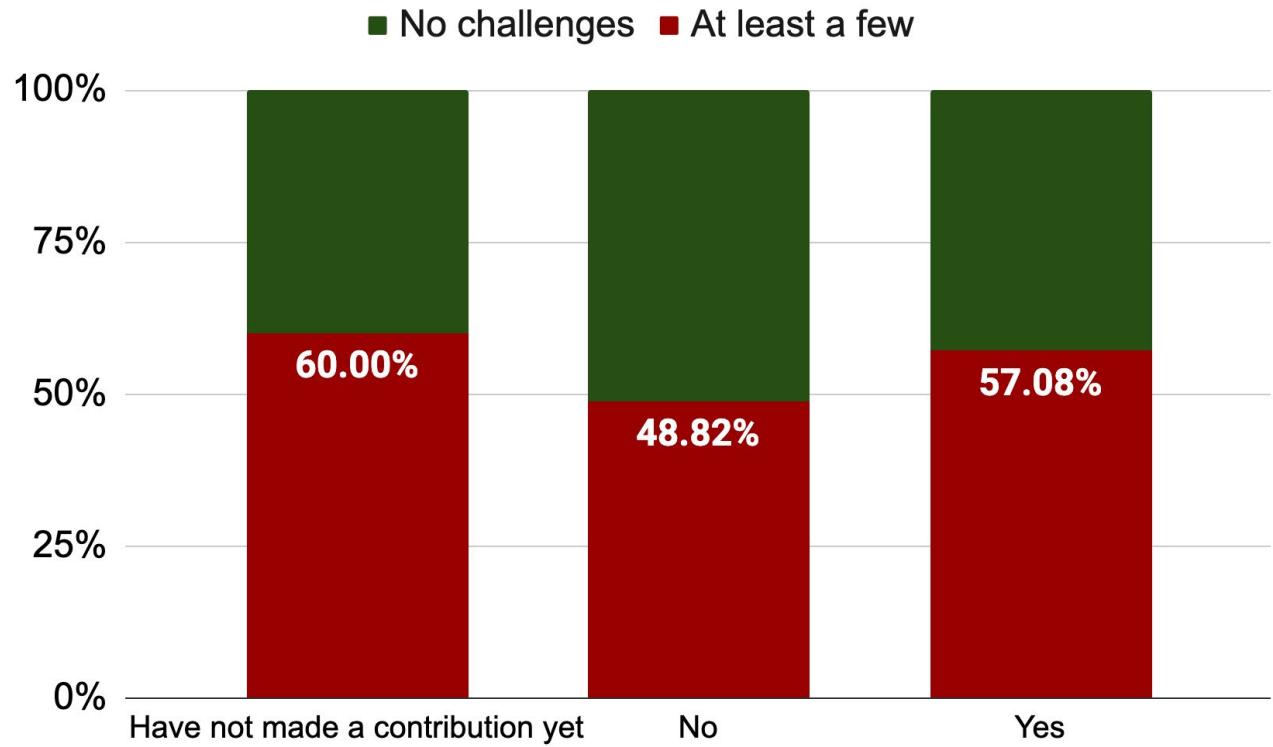

How can we reduce this barrier?

Having a Mentor

Those with a mentor faced more challenges

How can we reduce this barrier?

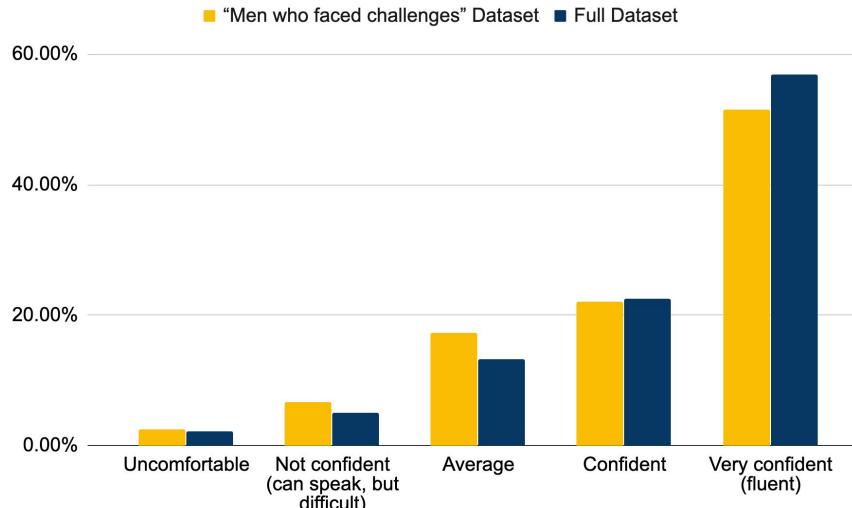

**Men who face challenges have
different demographics**

* Population of 272 people

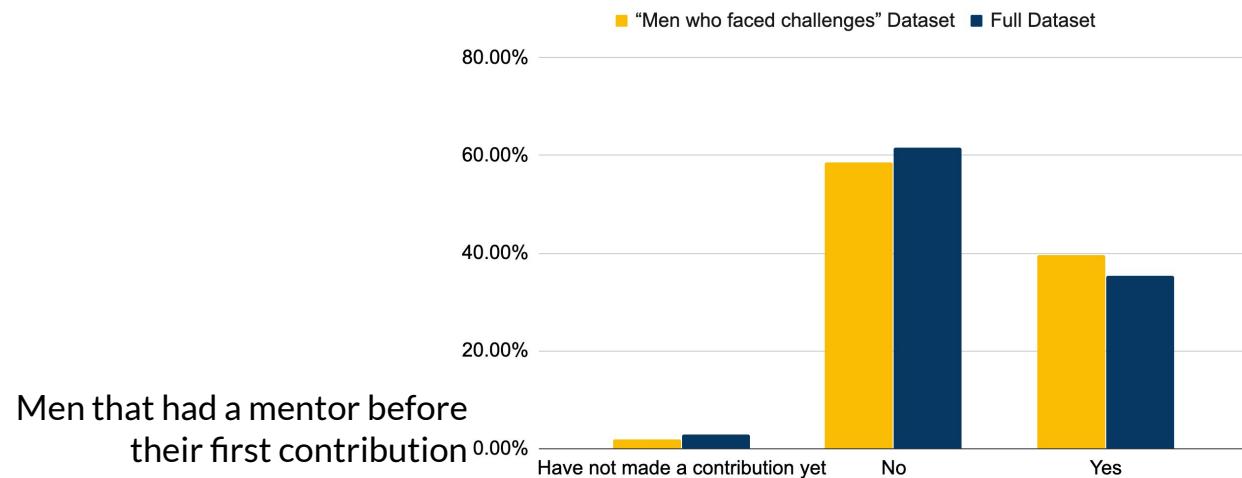

No main differences

Men with certain challenges do not show a different distribution if compared to the full dataset

Less confident in English

Slightly higher distribution of those that had a mentor before their first contribution

**Those who move from the country
where they grew up have...**

... different demographics

... challenges to contributing

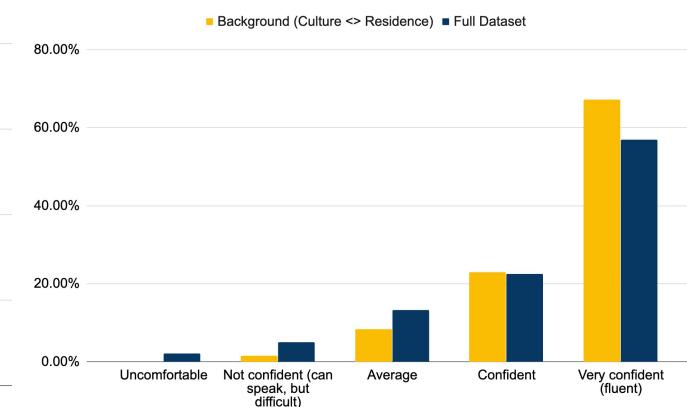

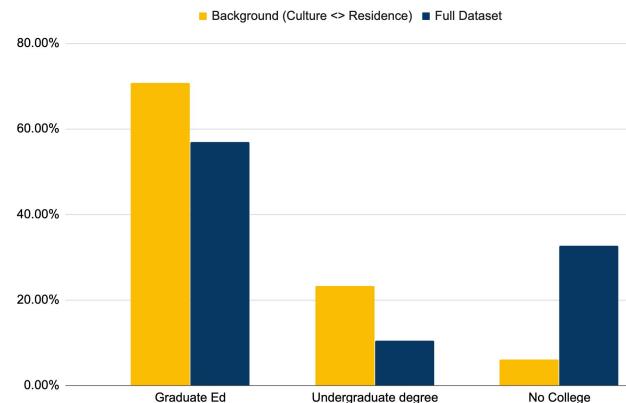

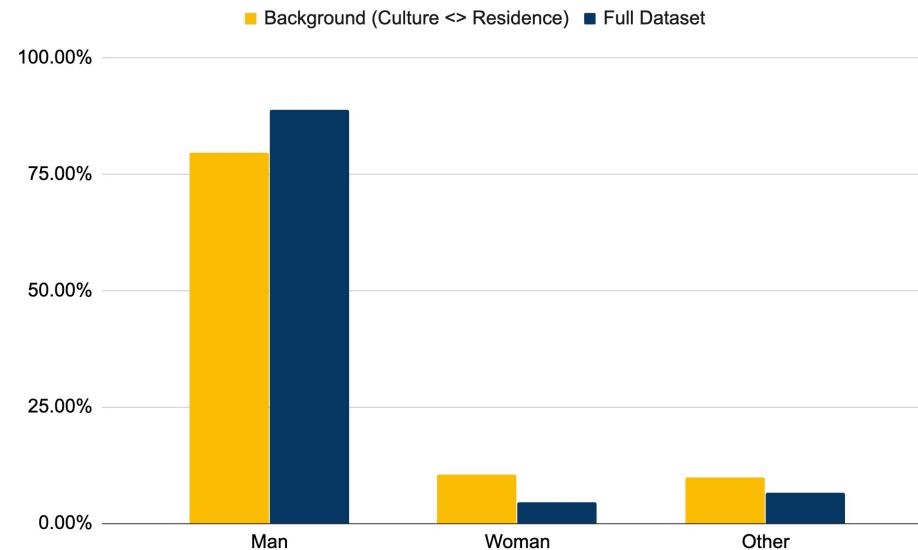

* Population of 134 people

Cultural Background

There are more women with a different cultural background and current residence

In general, those that moved to another country have a higher education and feel more English confident

And more are compensated for participating

Recap

- 1. Education impacts compensation: yes ($p<0.05$)^{*}**
- 2. Those in minority face challenges**
 - a. English fluency: Yes ($p<0.05$)**
 - b. Gender: Yes ($p < 0.05$)**
 - c. Having a mentor: No ($p = 0.05$)**
- 3. Men who face challenges have different demographics: No**
- 4. Those who move country where they grew up...**
 - a. ... different demographics: No**
 - b. ... challenges to contributing: No ($p>0.05$)**

^{*}Chi² test for significance

Question: what barriers newcomers face?

* Population of 18 people

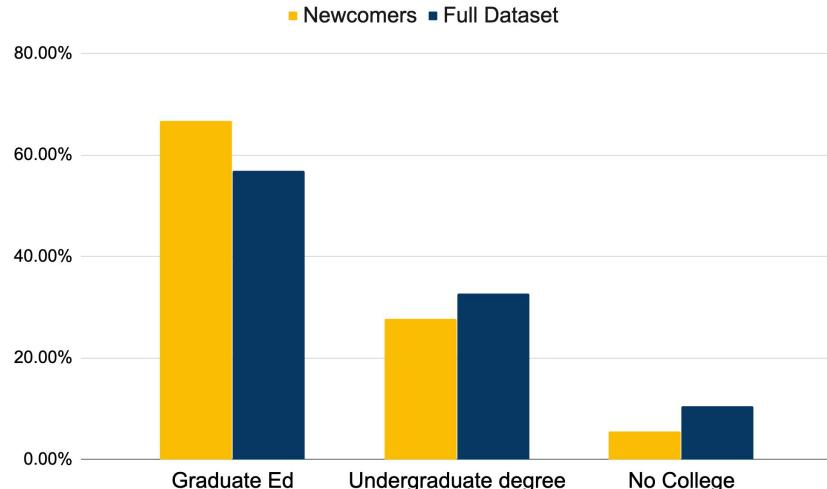

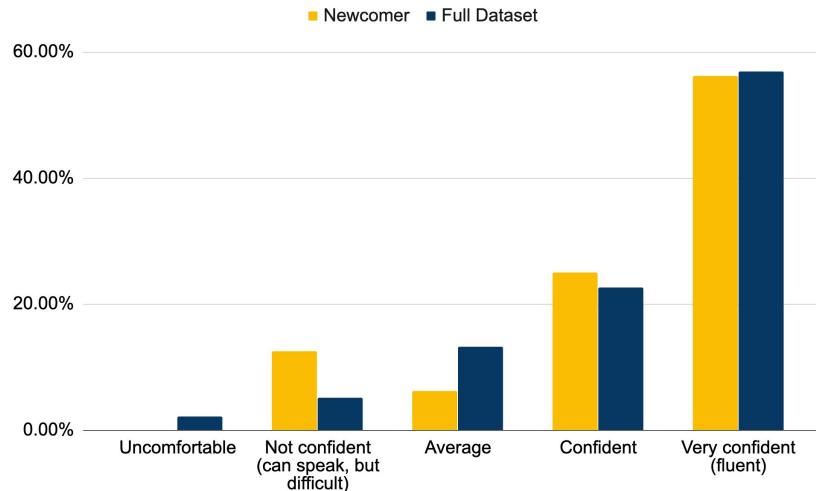

Newcomers have barriers

A higher percentage of them face challenges

There are more women in percentage. Is gender a factor for this?

The language might be another barrier

And most of them are volunteering with no compensation

Next Steps

Next steps

Interviews to validate hypothesis

- Interviewee identification distributed across studied dimensions
 - Minorities
 - Men with challenges
 - Average profile
- Additional interviews with groups of interest
 - Interns
 - Those who left

Quantitative analysis

- Selection of projects to analyze
- Dashboard generation with gender info

Diversity & Inclusion

***“Diversity is a Metric, Inclusion is a process
and Equity is an outcome.”***

@jesshmitchel

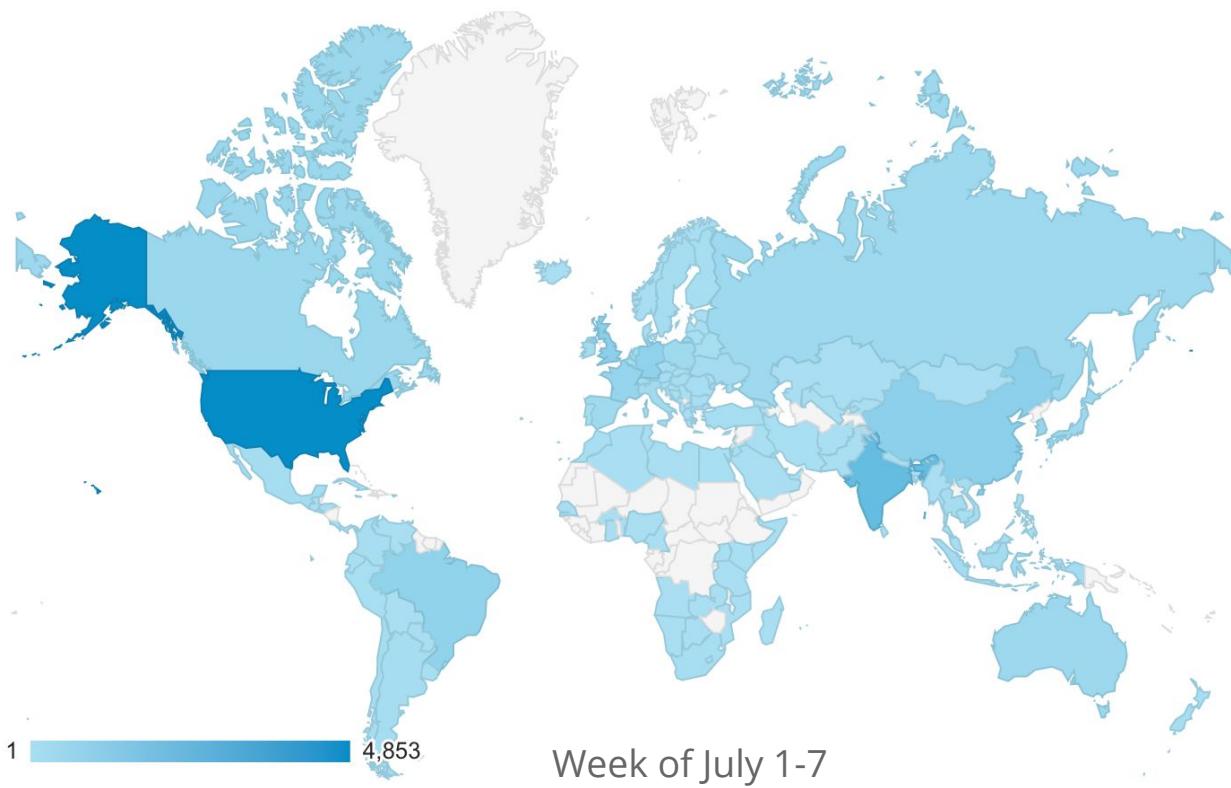

Diversity metrics

Geographic diversity of users and contributors

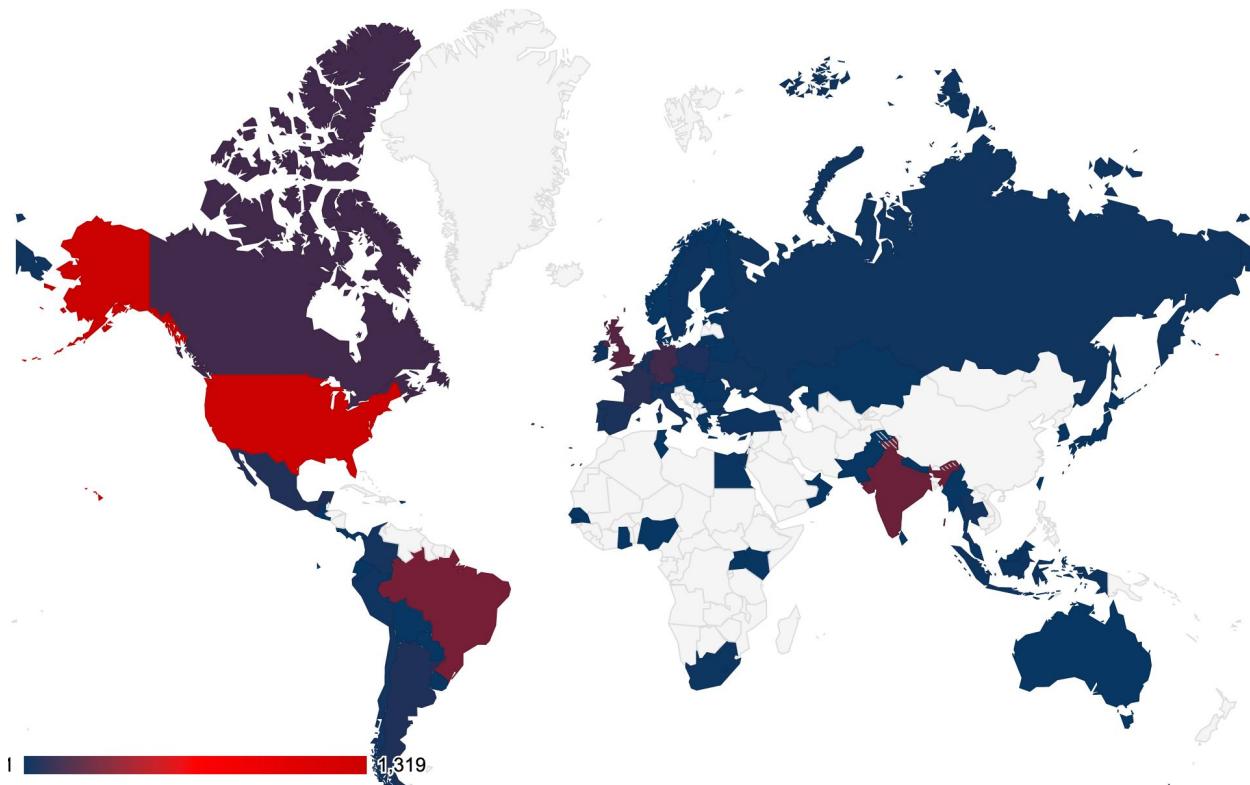

Diversity of vendors

Diversity of contributions

Airflow Website Visitors

Airflow Summit Attendees

Aggregate geo locations of the attendees on the 1st day of Airflow Summit 2020

Geographic Diversity of Contributors

Inclusion Processes

- Asynchronous communication
 - Mailing list - all important discussion happen on the mailing list
 - Discussions are open for at least 72 hours
 - People are encouraged to use simple English
- ✓ Transparency - all emails are public and archived
- ✓ Allow global participation
- ✓ Knowledge sharing (no tribal knowledge!)

Diversity of Vendors

Contribute to Apache Airflow

- Astronomer
- Google
- Polidea
- Lyft & many more

Use Apache Airflow: +300 companies

- AirBnB
- Lyft
- Reddit
- Tesla and many, many more:
<https://github.com/apache/airflow>

Inclusion Processes

- Business friendly license
 - Vendor-neutrality
 - We don't provide any statements that endorse, promote, or advertise the capability, credibility, or quality of any company's technology, product, or service.
-
- ✓ Ensure long term sustainability of the project
 - ✓ Avoid vendor lock-in

Diversity of Contributions

- Bug reports
- Issue triage
- Code and code reviews
- Documentation
- Design work
- Website
- Meetups
- Summits and many more

Inclusion Processes

- Community > code
 - We value health of the community more than code
 - We thrive to be inclusive to minorities
- Recognition
 - User -> Contributor -> Committer -> PMC -> ASF member
 - All contributors earn individual merit, and merit never expires!
- Mentorship
 - Google Season of Docs
 - Google Summer of Code
 - Outreachy

✓ Healthy interaction -> welcoming community -> new contributors

✓ Great communities create great software!

Looking ahead

- ▶ Strive to have more contributors - diversity of perspectives, knowledge, experiences, background, etc.
- ▶ Create a friendlier environment for underrepresented groups
- ▶ Diversity analysis for Apache Airflow
- ▶ Please join dev@airflow.apache.org - and participate!

A photograph of a group of six people in an office environment. On the left, two men are laughing while one holds a bottle of beer. In the center, a woman in a white jumpsuit is laughing, holding a bottle of beer. To her right, another woman in a pink hijab and a striped shirt is laughing, holding a bottle of beer. On the far right, a woman in a black dress is laughing, holding a bottle of beer. They are all smiling and appear to be having a good time. The background shows office cubicles and a window.

Thank you
