

AIRFLOW SUMMIT 2026

Aug 31 - Sep 2, Austin, US

PROSPECTUS

Welcome to **Airflow Summit 2026**,
the largest global gathering of
Apache Airflow users,
contributors, and data
orchestration professionals.

Airflow Summit 2026 will bring together data engineers, architects, open-source contributors, and business leaders to explore the groundbreaking features of Airflow 3.0, share real-world use cases, and shape the future of data workflows.

Join us to discover how Apache Airflow is redefining the business from the core of the data orchestration.

PROGRAM

Multi-day event distributed over 3 days through keynotes, talks, and workshops.

The program will be organized into 3 main tracks:

- **Builder Track:** Talks focused on building, operating, or scaling Airflow, whether you're writing DAGs, managing deployments, tuning performance, or keeping pipelines reliable at scale, sharing hands-on techniques.
- **Data & AI Application Track:** Exploring how Airflow powers data products, analytics workflows, ML pipelines, or downstream ML and AI outcomes. Demonstrate how teams integrate Airflow with modern data and ML ecosystems, including experimentation, quality, metrics, model training, or analytics.
- **Data Strategy Track:** Covers the organizational or strategic side of Airflow, such as team structure, governance, observability, adoption planning, cross-functional alignment, or long-term platform strategy. Leaders will share frameworks, decisions, and lessons to help organizations scale Airflow effectively.

Location and venue

Austin, Texas

The state capital known for its vibrant live music scene, thriving tech industry, unique culture with abundant food trucks and outdoor activities, and diverse population, balancing a fast-growing, modern metropolis with Texan history and a laid-back vibe. It's famous for festivals like South by Southwest (SXSW), its large urban bat colony, and being a hub for innovation and food.

Hyatt Regency

Nestled on the shores of Lady Bird Lake across from downtown on Barton Springs Road, offers easy access to South Congress and Downtown entertainment, walk to the Congress Ave Bridge to see Austin's famous bat migration spot, or to enjoy of the spectacular view of the downtown Austin skyline. With over 45,000 sq ft of flexible space, offers everything from grand ballrooms to intimate meeting rooms.

WHO ATTENDS?

Airflow Summit attracts a global community of professionals, including:

- Data Engineers & Developers mastering workflow automation with Apache Airflow
- Enterprise Architects & CTOs building scalable, data-driven ecosystems
- Data Scientists & Analysts integrating AI/ML workflows with Airflow
- Open-Source Contributors shaping the future of Airflow
- Technology Decision Makers evaluating innovative data orchestration solutions
- Attendees represent a diverse range of industries, including technology, finance, healthcare, e-commerce, and more.

APACHE AIRFLOW GLOBAL REACH & IMPACT

Apache Airflow is a widely adopted open-source tool for orchestrating data pipelines, with over 77,000 organizations using it as of 2025 to automate workflows, scheduling, and monitoring.

2025 EDITION

AUDIENCE SNAPSHOT (2025)

Trusted by leaders in cloud, fintech, retail tech, and big data. Participants included maintainers as users from organizations such as Liberty Mutual, Capital Group, and USAFacts.

- **Airflow Maintainers & Builders** – Cloud OSS teams actively building or stewarding Airflow.
- **Tech Product Airflow Teams** – High-growth SaaS and tech orgs running production workloads atop Airflow.
- **Enterprise Airflow Operators** – Retail, manufacturing, healthcare, logistics, treating Airflow as critical infrastructure.
- **Financial Services Airflow Power Users** – Banks, fintechs, trading firms with regulated ML/data pipelines.
- **Media & Entertainment Data Orchestrators** – Broadcasters, sports franchises, streaming/content outfits delivering data-driven fan and media products.
- **Public Sector & Education Airflow Adopters** – Government, nonprofits, and universities using or exploring Airflow.
- **Airflow Ecosystem Vendors & Partners** – Whose offerings integrate with Airflow.
- **Airflow Explorers & PoC Teams** – Still evaluating or piloting Airflow in prototypes or limited use cases.

BECOME A 2026 SPONSOR

WHY TO SPONSOR?

Obtain high-visibility access to a specialized audience of data engineers, developers, and decision-makers.

Key benefits of sponsoring:

- Targeted Brand Exposure: Reach a highly engaged, technical audience actively seeking solutions for data workflows and pipeline automation.
- Major Milestone Positioning: Showcase your organization as a leader in the ecosystem.
- Industry Thought Leadership: Present, host workshops, or share success stories in the Builder, Data & AI, or Strategy tracks.
- Direct Networking: Connect with community members, contributors, and industry experts from leading companies.
- Lead Generation & Recruitment: Utilize exhibition opportunities and job promotion to connect with potential clients and talent.

About Apache Airflow®

Apache Airflow is an open-source platform that has become the gold standard for orchestrating complex data workflows. With its vibrant community and versatile architecture, Airflow enables organizations to automate, scale, and optimize their data pipelines. The launch of Airflow 3.0 cements its role as the foundation of modern data engineering.

Apache Airflow®, Apache, Airflow, the Airflow logo, and the Apache feather logo are either registered trademarks or trademarks of the [Apache Software Foundation](#) in the United States and/or other countries, and are used with permission. The Apache Software Foundation has no affiliation with and does not endorse or review the materials provided at this event, which is managed by Software Guru.

Airflow® Summit is produced by:

SG Software Guru, an agency and media for engaging with technical audience.

- We get developers. We ourselves are developers and understand their needs and pains, we always reach from a common ground.
- We are experienced. We have 22 years in business during which we have performed all kinds of engagements for developers.
- We are connected. Through our media business unit we reach more than 25k software professionals every month. We engage live with more than 20k developers every year through our different events.
